PRESENT STATE OF HEALTH

It surprises many people when they discover Chiropractic doctors don't treat symptoms, instead they find the underlying cause(s) of your ache, pain or condition, and help your body to heal. Chiropractors understand that symptoms may indicate that there is something not functioning properly in the body, or they may just be healthy warning signs from an optimally functioning body that is being overstressed.

People present to this clinic in various stages of health or health decline. If you are experiencing symptoms then please describe these as fully and informatively as you can by answering the following:

PATIENT INFORMATION

Changes to the law now require all practitioners who manipulate the spine to warn patients of material risks. In extremely rare circumstances, some treatment of the neck may damage a blood vessel and give rise to stroke or stroke-like symptoms. (Current literature states this to be approximately 1 in 1-2 million according to D. Chapman-Smith, seminar 2002 and approximately 1 in 5.85 million neck manipulations according to Haldeman, et al, Spine vol. 24-8 1999).

Whilst this has never occurred in this practice, we are still required to warn. If any adjustments (manipulations) are required you will be tested beforehand, as has always been our practice.

Other very slight risks include strain/injury to a ligament or disc in the neck (less than 1 in 139,000) or the lower back (1 in 62,000).

Chiropractic adjustments (manipulations) of the spine are internationally recognised as being far safer in dealing with neck and low back pain than medication and many other alternatives. (A Risk Assessment of Cervical Manipulation, JMPT, 1995. Manga Report, Ontario Ministry of Health, 1993).

Please note that this consent does not waiver your Common Law Rights, rather it is merely for you to acknowledge that you have been informed of the known risks.

If you have any questions related to the treatment you are about to receive or possible alternative approaches, please speak to the chiropractor.

I have discussed the above information with the chiropractor and give my consent to treatment.
